

Evacuation Policy and Procedures

Policy Statement

We ensure our premises present no risk of fire by ensuring the highest possible standard of fire precautions. The person in charge and staff are familiar with the current legal requirements. Where necessary we seek the advice of a competent person, such as our Fire Officer, or Fire Safety Consultant.

EYFS key themes and commitments

A Unique Child	Positive Relationships	Enabling Environments	Learning and Development
1.3 Keeping safe		3.3 The learning environment 3.4 The wider context	

Procedures

- The basis of fire safety is risk assessment. These are carried out by a 'competent person'.
- Staff have received training in fire safety sufficient to be competent to carry out risk assessment; this will be written where there are more than five staff. This will follow the guidance as set out in the *Fire Safety Risk Assessment – Educational Premises* document. Please see most recent risk assessment.
- Managers will liaise with Children Centre managers and Tanners Wood School so fire procedures are compatible and all agencies are clear and in agreement with each agency policy
- Fire doors are clearly marked, never obstructed and easily opened from the inside.
- Smoke detectors/alarms and firefighting appliances conform to BSEN standards, are fitted in appropriate high risk areas of the building and are checked as specified by the manufacturer.
- Our emergency evacuation procedures are approved by the Fire Safety Officer and are: clearly displayed in the premises, noticeboard in the foyer and on the staff notice board explained to new members of staff, volunteers and parents; and practised regularly at least once every term.
- Records are kept of fire drills and the servicing of fire safety equipment.
- The fire alarm is tested weekly.

Emergency evacuation procedure:

- Full evacuation practices are carried out every term with the children and the fire alarm tested weekly. Extra practices are made each half term at the staff discretion.
- Notices displaying the fire exits are on the notice boards and fire exit signs are above the doors.
- If no smoke is visible, the floor manager will check the fire panel in the lobby for information and check the children's centre/ disabled toilet before re-entering preschool to evacuate with the rest of the children.
- Children are led out calmly to the evacuation point in the outside area – a key for the rear gate is kept in the evacuation box. Once at the rear fence children will be helped to hold

onto a walking rope so they can be led to an assembly point on the adjacent school playground.

- Staff will close doors behind them.
- The floor manager will call out the register for all staff to acknowledge the child at the evacuation point. Staff, volunteers, parents and volunteers will also be checked against the staff register and visitor signing in/out book.
- How long it takes to get the children out safely – this is recorded on the evacuation test sheet.
- Any member of staff will call the emergency services as soon as they reach the assembly point.
- Emergency contact numbers of parents will be held by the fire exit to enable staff to quickly contact parents to collect their child.

Post evacuation practise procedures:

- The manager or deputy will check the building before allowing children and staff to re-enter.
- Preschool main door re-set
- The evacuation box is checked and replaced.
- Complete Evacuation practice record book.

The Evacuation Practice record book contains:

- Date and time of the drill.
- How long it took.
- Whether there were any problems that delayed evacuation.
- Any further action taken to improve the drill procedure.
